					1	2	3
						Tomatoes and other vegetables are in peak selection at the nurseries.	Fight aphids and other bug pests naturally with ladybugs and praying mantis.
4	5	6	7	8	9	10	10
Pull those weeds before they go to seed.	CINCO de MAYO						Codling Moths tunnel through apples, now is the time to hang traps in your fruit trees to prevent them.
11	12	13	14	15	16	17	17
Mother's Day	It's warm enough to plant your vegetable gardens. Plant an extra row for the hungry.					You still have time to plant Gladiolus, Dahlias, Lilies and other summer bulbs.	
18	19	20	21	22	23	24	24
Add a fresh layer of mulch to weeded beds. Add some organic corn gluten to help control weed seeds.					Slugs are in season. Sprinkle Worry Free slug bait around the garden and in pots.	Spring blooming shrubs should be trimmed right after blooming.	
25	26	27	28	29	30	31	31
Allow foliage on spring bulbs to die back naturally, storing energy for next year.	MEMORIAL DAY
